

## E-Cool Wiring

All wire is 20 gauge TXL thin wall automotive wire, except for the Ground wire, which is 18 gauge (to accommodate the load requirements of the fuel injectors).

Signal		Wire Color	Wire #	Connect to
Ground		Black	1	Ground
O – E-Cool	in	White	2	
	out	White w/Red	3	5 <sup>th</sup> Injector
Channel 1	in	Yellow	4	From ECU INJ-1
	out	White w/Yellow	5	
Channel 2	in	Gray	6	
	out	Green	7	
Positive		Red	8	12 VDC and 5 <sup>th</sup> Injector
MAP transducer	in	Hose		
A – Unused	out	Pink w/Yellow	9	
	in	Tan	10	
Channel 3	out	Red w/Blue	11	
	in	Blue	12	
Channel 4	out	White w/Green	13	
	in	Green	14	
B – TPS Control	out	Purple w/Yellow	15	
	in	Purple	16
